

Rail Industry

Heavy Duty Forgings

About Us

Well established reputation having produced forgings for the London Underground, Black Country Museum and everything in between. With engineering and metallurgical support on every product.

Why Choose Us

World leader in forging and machining with a global reputation for quality.

- Reverse Engineering Service
- AS/EN 9100 Series
- ISO 14001:2015
- Metallurgical Support

Refurbished & Heritage

Somers keeps history alive with forgings built to stand the test of time for both active trains and museum pieces. In the past we have undertaken work for LMS Patriot Project and Severn Valley Railway creating new lasting memories.
